

**MAXIMUM FLOW
ECO FRIENDLY SHOWERHEAD**

save \$75 in energy &
2700 gallons per year*

brush your teeth

wake the kids

start the coffee

use the toilet

pick out your clothes

feed the dog

answer the phone

...this shower will wait

Taking Your Shower Never Felt So Good!

Use **evolve** and you'll experience a luxury featured, maximum flow shower that just happens to be environmentally friendly too. Instead of conserving water while you're taking a shower, **evolve's** ShowerStart™ technology saves the hot water that's wasted before you actually get in. The result – save time, hot water, energy and money without giving up a single thing.

be resourceful

discover the beauty of doing
your part without doing without

Consider evolve's Aspen showerhead style if you...

...are looking for a large, wide coverage rain shower,
but wonder if it will work with your existing shower arm

Well, look no further. This one includes ShowerStart™ technology and offers the perfect balance of size, spray coverage and usability. No need to redo your plumbing or invest in an expensive goose-neck shower arm to enjoy this great feeling rain showerhead.

* family of three showering daily and saving 1 minute of hot water per shower (water flow of 2.5 gpm & \$.03/gallon hot water cost).

SS-2200BN-US: brushed nickel

1

Turn on your shower

Once the water gets warm, evolve automatically enters trickle mode

newfound freedom – brush your teeth, use the toilet, shave... while your shower is warming

no more guessing – you'll know (hear) the instant your shower is ready

no more guilt – hot water's not running down the drain when no one's in the shower

save – a family of 3 saving as little as one minute of hot water per shower can save up to \$75 in energy bills and 2,700 gallons of water per year (2.5 gpm & \$.03/gallon hot water cost)

2

Flip the switch to begin taking your warm, luxurious shower

key features:

ShowerStart™ technology

save time, water, energy & money without lowering water flow

maximum flow rate allowable by law

40% more than competing showerheads (2.5 gpm vs 1.8gpm)

works with standard shower arm

large 8" spray head with 65 spray nozzles

wide coverage rain spray pattern

solid brass fittings

anti-clog spray nozzles
