

MAXIMUM FLOW
ECO FRIENDLY SHOWERHEAD

save \$75 in energy &
2700 gallons per year*

brush your teeth

wake the kids

start the coffee

use the toilet

pick out your clothes

feed the dog

answer the phone

...this shower will wait

Taking Your Shower Never Felt So Good!

Use **evolve** and you'll experience a luxury featured, maximum flow shower that just happens to be environmentally friendly too. Instead of conserving water while you're taking a shower, **evolve's** ShowerStart™ technology saves the hot water that's wasted before you actually get in. The result – save time, hot water, energy and money without giving up a single thing.

be resourceful
discover the beauty of doing
your part without doing without

Consider evolve's Macaw showerhead if you...

...enjoy pampering yourself with luxurious spray patterns and want the flexibility and convenience only a hand shower can offer

With this powerful hand shower you'll get the benefits of ShowerStart™ technology along with an enjoyable everyday standard spray, an opulent aerated champagne flow, a firm yet gentle pulsating massage pattern as well as combination sprays. This hand shower will start you off right, each and every day.

1

Turn on your shower

Once the water gets warm, evolve automatically enters trickle mode

newfound freedom – brush your teeth, use the toilet, shave... while your shower is warming

no more guessing – you'll know (hear) the instant your shower is ready

no more guilt – hot water's not running down the drain when no one's in the shower

save – a family of 3 saving as little as one minute of hot water per shower can save up to \$75 in energy bills and 2,700 gallons of water per year (2.5 gpm & \$.03/gallon hot water cost)

2

Flip the switch to begin taking your warm, luxurious shower

key features:

ShowerStart™ technology

save time, water, energy & money without lowering water flow

maximum flow rate allowable by law

40% more than competing showerheads (2.5 gpm vs 1.8gpm)

sleek euro styling

generous 4" spray head

5 different spray patterns – standard, massage, champagne & 2 combination sprays

solid brass fittings

anti-clog spray nozzles
