

MAXIMUM FLOW  
ECO FRIENDLY SHOWERHEAD

save \$75 in energy &  
2700 gallons per year\*

brush your teeth

wake the kids

start the coffee

use the toilet

pick out your clothes

feed the dog

answer the phone

...this shower will wait

## Taking Your Shower Never Felt So Good!

Use **evolve** and you'll experience a luxury featured, maximum flow shower that just happens to be environmentally friendly too. Instead of conserving water while you're taking a shower, **evolve's** ShowerStart™ technology saves the hot water that's wasted before you actually get in. The result – save time, hot water, energy and money without giving up a single thing.

be resourceful

discover the beauty of doing  
your part without doing without

## Consider evolve's Panda showerhead if you...

...love the added coverage and warmth only a rain shower can provide, but worry the spray is going to be too weak.

Well, worry no more. We've concentrated the benefits of a rain showerhead into a more compact form factor. It's the perfect combination of wide body coverage and a more powerful spray. Plus you'll get the added benefit of ShowerStart™ technology too.

\* family of three showering daily and saving 1 minute of hot water per shower (water flow of 2.5 gpm & \$.03/gallon hot water cost).

1

Turn on your shower  
Once the water gets warm, evolve automatically enters trickle mode

- 

newfound freedom – brush your teeth, use the toilet, shave... while your shower is warming

- 

no more guessing – you'll know (hear) the instant your shower is ready

- 

no more guilt – hot water's not running down the drain when no one's in the shower

- 

save – a family of 3 saving as little as one minute of hot water per shower can save up to \$75 in energy bills and 2,700 gallons of water per year (2.5 gpm & \$.03/gallon hot water cost)
