

**MAXIMUM FLOW  
ECO FRIENDLY SHOWERHEAD**

save \$75 in energy &  
2700 gallons per year\*

brush your teeth

wake the kids

start the coffee

use the toilet

pick out your clothes

feed the dog

answer the phone

**...this shower will wait**

**Taking Your Shower Never Felt So Good!**

Use **evolve** and you'll experience a luxury featured, maximum flow shower that just happens to be environmentally friendly too. Instead of conserving water while you're taking a shower, **evolve's** ShowerStart™ technology saves the hot water that's wasted before you actually get in. The result – save time, hot water, energy and money without giving up a single thing.

be resourceful

discover the beauty of doing  
your part without doing without

## Consider evolve's Water Lily showerhead style if you...

...love the idea of a rain shower but worry the spray won't be strong enough to remove the shampoo from your hair.

Well, worry no more. With this innovative head you'll get ShowerStart™ technology, and a great feeling rain pattern as well as a concentrated pulsating spray that massages your scalp while quickly removing the shampoo from your hair.

\* family of three showering daily and saving 1 minute of hot water per shower (water flow of 2.5 gpm & \$.03/gallon hot water cost).

1

Turn on your shower  
Once the water gets warm, evolve automatically enters trickle mode

•

newfound freedom – brush your teeth, use the toilet, shave... while your shower is warming

•

no more guessing – you'll know (hear) the instant your shower is ready

•

no more guilt – hot water's not running down the drain when no one's in the shower

•

save – a family of 3 saving as little as one minute of hot water per shower can save up to \$75 in energy bills and 2,700 gallons of water per year (2.5 gpm & \$.03/gallon hot water cost)

•

2

Flip the switch to begin taking your warm, luxurious shower
